

National Leaders in Testing, Inspection, Certification and Lifting Solutions

Founded in 1812 to test and certify anchors, chains, and lifting equipment for the Royal Navy, we have over 200 years of technical expertise in providing compliance and lifting solutions.

Lloyds British are now a national leader in providing Testing, Inspection, Certification services, and lifting solutions.

Our planning team and specialist engineers keep our customers equipment compliant with the relevant legislation and standards.

Our expert services include:

- Testing, Inspection and Certification
- Maintenance, Installation, Repairs and Breakdowns
- Mechanical, Compression, Tensile and Pressure Testing
- Fall Protection Systems
- Lifting and Safety Equipment Sales
- Crane Maintenance, Refurbishment and Installation
- Design and Manufacture of Lifting Equipment
- Lifting, Safety and Plant Operator Training

As a national leader in compliance and lifting solutions, our services are focussed around supporting our customers across all sectors.
